

# Robotour

## robotika.cz delivery challenge

Lednice 2018

Martin Dlouhý

# Thanks

- Vladimír Mašán (Mendel University in Brno)
- Ivana Holásková (Zámek Lednice)
- Ondra Luks ([live.robotour.cz](http://live.robotour.cz))
- Jan Faigl (PAIR)
- Teams

# Rules 20178 Proposal

- Focus on autonomous delivery ( $A \rightarrow B$ )
- Start and goal provided via dedicated website on the Internet (or local Wi-Fi access point)
- Autonomous zone in the park
- No longer (organized) concurrent start of all robots (only time window when is delivery valid)
- Load/unload via human operators, ~~but automatic loading is accepted~~

# Review Robotour 2018

- Park and weather was nice :-)
- 0th round on Friday helped some teams (next time homologation at the same place)
- Printed QR Codes OK
- Scoring sufficient
- Add 30minutes between 1st/2nd and 3rd/4th runs
- Point for leaving semiautonomous zone?

# Robotour Marahon

- Impressive results (JECC Fesi/Lois, Cogito)
- Mentoring
- Heavy duty tests
- Marathon 2019 starts today and ends day before Robotour 2019

# Robotour 2019

- Deggendorf (Germany)?
- September 2019

Thanks ...
